Message from Zita

Celebrate the season of Spring, this month by gathering all your energies and completing outstanding tasks at work, and at home. At Team Namibia we are planting the seeds of creativity to ensure all marketing and promotional drives are completed before the end of November. Our most important task at hand is still to finalize the signing of our MOA with the MTI and to gather a platform for the branding initiatives around our Nation Branding campaign. We urge members to continuously interact with us, and build their relationship with Team Namibia.

Why you should support local

Remember that the more Namibian made products/services we buy, the more we stimulate local production and this will help create the conditions for producers to seek labourers and in so doing contribute to alleviating unemployment and decrease the cost of our products and services in the long run.

Thus, Team Namibia is an important initiative. It is the mechanism by which to not only build our industries and in that way combat unemployment and all the social evils that accompany it, but also a way in which to build a sense of self and country, a sense of patriotism and loyalty to our flag and our people. So when you turn consumer and you have money to spend, buy local in as far as you possibly can. Look for the Team Namibia flag or find a product that is produced here before you opt for an import.

Newly elected Board

We welcome to the board Ms Margareth Gustavo, and Ms Lynn Wiedow, who were elected onto the board on 13 August 2008. We are also extremely glad to announce that Ms Lucia Radovanovic from the Ministry of Trade and Industry has been nominated to be part of the Board.

Team Namibia wins another award at the Ongwediva Show

Team Namibia and the MTI held a combined stand at the Ongwediva Show our Theme for this year was to promote our buy local campaign Be Namibian - Buy Namibian. We also won the best exhibitor under the category of NGO's.
